

THE INFINITY ADVANTAGE

3-PHASE INSTALLATION SYSTEM

Our signature process ensures flawless outdoor transformations with precision and care.

WHY THE INFINITY ADVANTAGE

The Infinity Advantage is built around preparation, communication, and quality workmanship from start to finish. Every step of the process is designed to keep your project organized, efficient, and built to a high standard. You always know what's happening, what to expect, and where your project stands. And our commitment doesn't end once the fence is installed. We follow up after completion, check in once the fence has had time to settle, and remain available if anything comes up down the road. The result is a fence built to last, backed by a team that stands behind its work long after install day.

THE INFINITY ADVANTAGE IS OUR COMMITMENT TO OPERATING WITH STRUCTURE, ACCOUNTABILITY, AND LONG-TERM PERFORMANCE IN EVERY PROJECT.

PHASE 1: DEFINE & COMMIT

1. DISCOVERY & SCOPE ALIGNMENT

We start with a real conversation about what you need, what you want, and what you're trying to avoid. We walk through layout, materials, challenges, and price range so everything is clear from the start. If it makes sense for both sides, we move forward with confidence.

2. ON-SITE REVIEW & FITMENT

We come to your property and lock everything in. That means checking measurements, grade, access, and any obstacles that could impact the build. We make sure the plan works in the real world, not just on paper. You leave this step with clear pricing and a clear plan you can trust.

3. SECURE YOUR SPOT

Once everything is approved, your booking deposit secures your place in our schedule. At this point, the project becomes real and starts moving. We begin internal planning, material preparation, and timeline coordination so there are no surprises later.

PHASE 2: PLAN & BUILD

4. PRE-BUILD PLANNING & PROTECTION

Before we begin, we coordinate utility locates, confirm layout, and run final checks. This step prevents delays and avoids problems that other crews only discover once they've already started.

5. BUILD WITH PRECISION

We ensure that every post is set properly, every line runs clean, and every material is sized and installed for long-term strength. We focus on building it right the first time, not just making it look good for now. A fence should hold up for years, not just pass a quick inspection.

PHASE 3: DELIVER & BACK IT UP

6. FINAL WALKTHROUGH & APPROVAL

When the project is complete, we walk it with you. You see the finished result, check the details, and confirm everything meets expectations. We take the time to make sure it's right before we call it done, instead of rushing off to the next job.

7. WARRANTY & ONGOING SUPPORT

We stand behind the work after the install is finished. If something needs attention, we handle it. You're not left chasing us down or wondering who to call. We stay accountable to the work we put in.

Robyn Bertling

★★★★★ 5/5

My initial contact through this company was on social media as a result of watching the reels explaining their work and their ability to work through the colder months. We needed a privacy fence installed and while we had an idea of what we wanted to happen we relied on their expertise to guide us through the permit processes and overall design to fit the property and the vision of how it should look. We were responded to immediately on every single request, and this company went above and beyond to accommodate our questions and to complete the job quickly. Throughout the build, we were involved in the process and guided through what would work best for the area as well as included in the decisions (even if we didn't know for certain what the answers were) until we understood how the build needed to happen. We were treated with respect and so was our property. This company has their heart and soul in what they do. They are proud of the work they produce for their customers and rightly so. The fence is beautiful and this company is above and beyond for customer service. We cannot thank them enough !

★★★★★ 5/5

Infinity Fence were professional, very open to discuss my needs, and were diligent,dedicate, hard workers~ So appreciative!!
Justin offered an excellant price(quote) for installation of my chain link fence, and I would highly recommend contacting them for your fencing needs!
The sence of security for my dogs, and knowing that my neighbours will appreciate the respect I have for their needs inly accentuates and highlights a good neighbourhood community.
Your excellant efficient work will provide beauty & safety for years to come...Cheers guys!!

★★★★★ 5/5

I had a great experience working with Justin and his team. He was able to accommodate me sooner than expected, and they put in two full days of hard work to complete the project. I had a number of specific requests, and they not only met them but exceeded my expectations. The craftsmanship and attention to detail really show. I wouldn't hesitate to recommend them.
